

Product Specification

Neutral Multi Purpose Cleaner

Degrasan® NC 7

Characteristics:

Degrasan NC 7 is a clear slightly viscous, concentrated, pH-neutral liquid based on a combination of anionic surfactants and amplifying cleaning materials for the manual cleaning in all kinds of areas. The product is free of alkalis, acids, solvents and other toxic substances and is chemically neutral and mild to the skin. Degrasan NC 7 is used for the removal of soiling on windows, doors, floors, furniture of all kinds in factories, offices, dining rooms, etc.

The manual cleaning of dishes, equipment, floors, worktops and other types of surfaces in canteen kitchens, commercial spaces and in the food industry are fast and thorough, possible because of the fat and dirt solving properties of Degrasan NC 7. Through the reduction of surface tension and the good wetting effect of the product, a thin film of water is left on the cleaned surface which dries fast and is free of stripes.

Degrasan NC 7 can be used on all firm surfaces, regardless of whether they are lacquered or enameled, made from glass, chinaware, tiles, metals, rubber, plastic or wood. The Product is also suitable for cleaning of motor vehicles and their interior.

pH neutral - Pleasant smell - Economical in use - Foaming

Application / Dosage:

For normal cleaning, mix with cold or warm water at a relation of 1-2%. For the removal of stronger soils, increase dosage as needed.
